OVERVIEW

About this course

This comprehensive program is designed for developers who already have a baseline understanding of web development and are looking to specialize in modern, professional workflows. We dive deep into architectural patterns that power companies like Netflix, Airbnb, and Stripe.

Throughout the course, you will build a enterprise-grade SaaS application from scratch. We cover advanced React patterns, Micro-services communication, Database optimization, and CI/CD pipelines that ensure your code is production-ready at every commit.

- ✓

Advanced State Management (Zustand/RTK)
- ✓

Serverless Architecture & Edge Functions
- ✓

Performance Profiling & Optimization
- ✓

Robust Security & Authentication Flows

CURRICULUM

Course Content

3 Modules • 24 Lessons

01

Foundation & Architecture Design

4 Lessons • 1h 20m

- ▶

System Design for Scalability

15:00

🔒
- ▶

Thinking in Monoliths vs Microservices

22:00

🔒
- 📄

Case Study: The Stripe Architecture

Reading

🔒

02

Advanced React Patterns

8 Lessons • 3h 45m

- ▶

Compound Components & Render Props

34:10

🔒
- ▶

Mastering Custom Hooks & Closures

28:45

🔒

03

The Backend & API Layer

12 Lessons • 5h 10m
